INSTRUCTIONS — INFORMATION

Please Read Before Ordering

REMITTANCES—May be made by Check, Post Office or Express Money Order, or Registered Letter, and if for less than \$1.00 can be made in U. S. Stamps. Coin and currency should be sent by registered letter. Customers residing outside the United States please do not send Foreign stamps or currency—a Post Office order is preferable. All unpaid orders will be sent C. O. D. unless satisfactory arrangements can be made when the order is given.

GUARANTEE—I wish it distinctly understood that although I take all possible pains, I will not be responsible beyond the purchase price. I guarantee every root and plant I send out to be just as represented, absolutely true-to-name, reach its destination safely in good growing condition. I will cheerfully replace anything that fails to prove otherwise, and will appreciate your calling my attention to it. All orders postpaid.

NAME AND ADDRESS—Please remember to write your name, street and number, Post Office, County, State and Country if Foreign, as plainly as possible. Post Office Box or R. F. D. number if you have one. This will avoid delays and chances for errors.

ALWAYS ADDRESS

THE CULTURE OF THE DAHLIA

Success Will Follow If You Observe These Instructions

PLANTING. Plant roots in hills or drills, laying flat down, 6 inches deep. Do not stand the root on end. If you stand the root on end, having the sprout near the top of the ground, all the new roots which will form will grow near the top of the ground and when you have a dry spell your plant becomes stunted, whereas, if the roots were planted flat down 6 inches deep, no matter how dry the season, the roots would receive sufficient moisture to keep them growing. If planting with manure, cover manure an inch or so before planting roots; fertilizer should be thoroughly worked into the soil. Either fertilizer or manure will burn the sprout; be sure to cover with soil.

By planting the root first, then covering an inch or so with soil and applying your fertilizer or manure, your plant receives the entire benefit of the dressing. The dressing is above the root and every rain carries the food down to the roots, whereas, if your dressing is below the root, each rain takes your dressing further away from your plant.

CULTIVATION. Cultivation is the principal requirement of the Dahlia—the most important of all operations to insure success. Keep the soil well cultivated and free from weeds; never allow the soil to crust.

Be sure your friends get all my catalogs, as I guarantee all my stock to grow true to name, or stock is cheerfully replaced free of all expense.

I have been in the Dahlia and Plant growing business for over 48 years and at one time had over 40,000 customers and have shipped bulbs all over the world.

I shall only issue a folder this Spring on account of hard times, so send all orders from this. If interested in Hardy Plants, I will send you my 1933 Catalog for prices will be the same as then.

New And Up To Date Large Flowering Dahlias. Some of the world's best ever introduced, or ever offered at such low prices. MINIATURE DAHLIA SEEDLINGS

All Double Decorative and Cactus, every one different and some of the very best that I have ever grown. If you are looking for some bouquet dahlias try some of these. They are beautiful soft colors, mostly pink and soft salmon shades. I grew nearly 4,000 of these the past season and culled out all of the poor ones leaving only the very best to sell. I will sell a limited amount of these at 50c each, \$5.00 per dozen. These have not been named, you will get something entirely different in each dozen.

TO ANY CUSTOMER sending in a \$10.00 to \$14.00 order, I will send free one of my new J. K. Alexander, Jr., 12-14 inches in diameter, the largest crimson-red Hybrid Decorative ever offered, having a fleck of orange in center of each petal. This is even better than Satan and it sells for only \$3.00 per root and is worth \$10.00 to any Dahlia Grower.

TO ANY CUSTOMER sending in an order for \$15.00 or over, I will send free a bulb of my new Dahlia, Mrs. J. K. Alexander, a 14-16 inch bloom and flowers as free as a Pompon Dahlia, and is the most beautiful yellow ever introduced and sells for \$3.00 per root.

MIXED DAHLIAS

This mixture of some of the best named varieties without labels, all large-flowering, all different, and which sell, under names, at \$2.50 to \$5.00 per doz. I will send 12 fine bulbs, all colors, for \$2.00 postpaid.

Regular mixed, all types, all colors, a fine mixture of 12 all different, for \$1.00 postpaid.

DAHLIA SEEDS

I offer this year seed carefully selected from the best varieties and all types. If you are interested in growing Dahlias in new forms and new colors, you cannot do better than to get a packet of seed. One package will produce 15 to 20 plants.

SPECIAL SEED. I have selected and reserved some hand-pollenised seed and can supply a limited number of packets of this seed, being personally selected from my best and largest varieties. I highly recommend these seed. \$2.00 per package of 50 seeds.

GLADIOLI

The Gladioli are without an equal either for bedding or borders. As a cut flower they are far superior to any other Summer bloomer, either for lasting qualities or for the various uses for which they can be employed. If planted by the last of May, they will bloom by the first to the middle of August, if cared for properly.

The way to Plant—Dig the row or bed from eight to ten inches deep, then spread a liberal amount of good fertilizer in the bottom of the row or bed, then rake it in thoroughly before planting your bulbs from four to six inches deep.
